PROFESSIONAL SUMMARY

A Software Engineer, Front-End & Mobile Developer, Software developer Trainer with over 3 years of experience developing software products and delivering comprehensive training programs. Proficient in building responsive web and mobile applications using React.js, React Native, and Node.js. Combines expertise in full-cycle software development with a passion for mentoring diverse groups of learners in modern technologies.

SKILLS & COMPETENCIES

- **Technologies:** HTML, CSS, JavaScript, React.js, React Native, ExpressJs, MongoDB, TailWind, WordPress, Bootstrap, Python, MySQL
- **Mobile Development:** Cross-platform App Development (iOS/Android), Expo, React Navigation, Mobile UI/UX Implementation.
- **Project Management Tools:** Asana, ClickUp, Slack
- **Version Control:** GitHub
- **Communication Tools:** Zoom, Google Meet
- **Collaboration & Document Sharing:** Google Workspace, Microsoft OneDrive, Dropbox
- **Visual Design Tools**: Adobe Photoshop, Figma
- **Solution-Oriented Approach:** Maintains a consistent focus on identifying business needs and developing cutting-edge technological solutions to tackle them.
- **Collaboration & Teamwork:** efficient at delivering on project demands effectively, working harmoniously in teams, whether small, medium, or large.
- **Product Management Skills:** Exhibits strong familiarity with project management procedures, firmly leading projects from inception to completion, with an emphasis on timely and efficient execution.
- **Emotional Intelligence and Interpersonal Communication**: Upholds a high regard for empathy in all interactions with students, colleagues, and clients, employing clear, supportive, and open-ended communication techniques.
- **Adaptive Capacity:** Prone to swift learning of new technologies and adaptable to variable work climates, ensuring constant productivity even in dynamic and fast-paced projects.

EXPERIENCE

Web Developer – Motherboard (Remote), Dec. 2024 till date

- Developing interactive, user-friendly websites by implementing creative design and coding
- Optimizing applications for maximum speed and scalability, enhancing user experience.

- Conducting website performance tests to identify bugs and ensure their resolution.
- Discussing requirements with clients to clarify what they want from a project or to discuss the progress of the project.
- Integrated various APIs and web services to expand website functionality.
- Performed regular site maintenance, implemented updates, and addressed and resolved any website technical issues.
- Collaborated with design and backend teams to integrate REST APIs and ensure seamless UI/UX.
- Optimized front-end components for performance and accessibility across browsers.
- Maintained and updated client websites, including security patches and feature upgrades.

Founder & Lead Developer - ***King's Code Academy, Remote | Aug 2025 – Present***

- Founded a coding academy focused on training students in modern web development (React.js, React Native, Node.js, Git).
- Designed and developed the academy's website.
- Mentored junior developers and managed project assignments.
- Oversaw curriculum design and delivery for beginner and intermediate developers.

Web Developer & Instructor, Neocloud Technologies, Abuja, Jun. 2024 – Dec. 2024

- Provided instructional content in HTML, CSS, JavaScript, and React, Node.js.
- Mentored students through project work to ensure they developed technical skills that would enable the creation of functional websites.
- Provided one-on-one feedback, mentorship, and support to students to enable them to successfully launch projects.
- Focused on problem-solving and critical thinking to prepare students for real-world challenges.
- Leading a team of developers and designers to deliver web projects on time and within budget.
- Utilizing Agile methodologies to manage workflows and ensure collaborative, efficient project execution.
- Coordinated cross-functional teams, ensuring all technical and design requirements were met.

- Used Asana, ClickUp, and Slack for project tracking and communication, ensuring transparency and productivity.

Freelance Web Developer, Jan. 2023 – Present

- Designed and developed responsive, user-friendly websites for clients across various industries.
- Delivered online workshops and one-on-one coaching sessions, teaching web development skills to learners of all levels.

- Expanded service offerings to include React Native development, creating cross-platform solutions for small business clients.
- Delivered online workshops and one-on-one coaching sessions, teaching web and mobile development skills to learners of all levels.
- Focused on providing personalized, practical learning to allow clients and students to create their own digital products.
- Focused on providing personalized, practical learning to allow clients and students to be able to create their own websites.
- Implemented real-time collaboration in projects with Google Workspace, Slack, and Zoom among others.

PROJECTS

Wallet System with PayPal Integration

React.js | Node.js | PayPal API

- Developed a fully functional digital wallet interface with secure PayPal transactions.
- Integrated PayPal SDK for real-time payment processing and transaction tracking.
- Implemented user authentication and wallet balance updates.

AutoShowcase – Vehicle Display Interface

React Native | Expo | Mobile UI/UX

- Developed a high-fidelity front-end mobile interface designed to showcase luxury vehicles with a focus on visual aesthetics and user experience.
- Implemented complex UI animations and interactive galleries to display vehicle specifications and high-resolution imagery.
- Optimized front-end performance to ensure smooth scrolling and seamless navigation across different screen sizes on iOS and Android.

Enterprise Web-to-Mobile Migration (Confidential)

React Native | Mobile Architecture | System Integration

- Currently engineering the mobile interface for an established high-traffic web platform, translating complex web functionalities into a native mobile experience.
- Collaborating strictly under NDA to ensure proprietary business logic and client data are securely handled during the development process.
- Focusing on cross-platform compatibility and retaining brand consistency while optimizing the application for mobile performance and touch-based interactions.

Charity Website Platform

React.js | Node.js | MongoDB

- Created a responsive donation website with a modern UI for a non-profit organization.
- Built backend APIs to manage donations, user accounts, and content.
- Deployed on a cloud platform with HTTPS and SSL.

Time Scheduling Interface

React.js

- Designed a clean and intuitive frontend for scheduling appointments.
- Focused on accessibility and mobile responsiveness.

EDUCATION

B. Tech, Information and Communication Technology

Kebbi State University Aliero, 2019 – 2025

COURSES

- Software Development Course, CompTia, Oct. 2024
- Web Development Course, SuperSimpleDev, 2024
- Product Management Fundamentals, University of Maryland, 2024
- React Native & Mobile App Development, Net Ninja, 2025.
